

November 21, 1952

Albert E. Waugh, Provost
The University of Connecticut
Storrs

Dear Provost Waugh:

Thank you for your letter of November 15. The following persons are very well acquainted with my professional work:

E. L. Tatum
Professor of Biology
Stanford University
California

F. J. Ryan
Professor of Zoology
Columbia University
New York 27, N.Y.

T. M. Sonneborn
Professor of Zoology
Indiana University
Bloomington, Indiana

In addition, of your former colleagues in genetics, Professor Sinnott and Professor Dunn have been acquainted with me.

You will not be surprised if I indicate that my interest in the position will depend on its details, which have not yet been furnished.

I enclose a bibliographic list and a curriculum vitae. These were prepared and are on hand for another purpose, but I hope will suffice for the present. If not, please notify me further.

Yours sincerely,

Joshua Lederberg
Associate Professor of Genetics
